

Large Group Teaching Expectations

As you prepare for the teaching time, please do the following:

1. Pray
2. Read the passage a ton! If you need any help with understanding it, don't hesitate to call Paul.
3. Connect the dots between last week and this week.
4. Engage Students: One of my goals this year is to engage our students more in our large group time.

These materials are designed with that in mind. How?

- a. The "What? So What? Now What?" format because it models for our students how they can approach scripture.
- b. The Q & A format. Instead of simply telling our students what to believe, I want to challenge them to look at the scripture and then help them discover the answer and then unpack it.
- c. Starting each lesson with a student or leader reading the passage.
